

CALL FOR VOLUNTEER
EVS project "Rock & Ride @ Boltik Baik"
April,1 – May, 31
LIEPAJA, LATVIA

ABOUT THE PROJECT

This will be the fourth year when we organize the project *Boltik Baik*. The transcription of the title of the project is our invention, and most of our activities are related to "Do It Yourself" principles and great creativity.

In previous years (2011, 2012 and 2015) it had a great visibility and a very good vibe. And we believe that all of the involved – local and EVS volunteers and our organization as well had a great work and life experience.

An important activity of the project will be one week in May – a freakbike workshop when local youngsters can participate and build their own bikes. It will take place in our self-service bicycle workshop that we opened this year in the harbor of Liepāja. It will be done with the help of two great bicycle masters, Raivis Grigaluns that is a Radi Vidi Pats member and supporter for 5 years already and one of the most experienced freakbike constructor in Europe – Gatis Kreicbergs that we also have cooperated very successfully.

Tasks for the short-term volunteers:

- 1) General preparation of the Freakbike workshop with 20 local participants and evening program that is going to be held in May. This includes cleaning the space, building up different installations like cupola, stage, etc, arranging tools, collecting old bicycle parts from all around the city and arranging them, and general assisting in the project coordination;
- 2) Preparation of the project posters, and putting them around the city, continuing the blog started in Boltik Baik 2012 and 2015: boltikbaik.blogspot.com;
- 3) Taking photos and making videos during the project;
- 4) Taking part in creating the learning evaluation tool that the organization has been working on.

Trainings provided for the volunteers:

- 1) On-arrival training organized by Latvian National Agency;
- 3) Mid-term evaluation and final evaluation (for short term volunteers it will be organized by Radi Vidi Pats and mentors);

Other activities during the project:

- 1) Possibility to attend freakbike workshop and parade in Riga in May;
- 2) Excursions around Kurzeme region.
- 3) Storytellers festival in Kuldīga (last weekend of April).

4) Museum and Cultural night in Liepaja (merges with the closure of Boltik Baik workshop week);

5) Etnomusic festival and handcrafts' market Līvas ciems in Liepaja (3rd weekend of May);

It would be a bonus if the volunteer has previous experience photography, photoshop, bicycle reparation.

Sending organization:

Associazione InformaGiovani – PIC 949741454 – HEI 2014-1-IT03-KA110- 005821

Send your application (short motivation why you want to be the volunteer in Radi Vidi Pats) and CV to EVS@informa-giovani.org until **20st of January**. Chosen volunteers will be contacted for an interview until 1st of February.
